

2016 Spring Plant Sale

April 16, 2016

10 am to 2 pm

McFarlane Nature Park

Marietta, GA

We have over 4000 plants lined up for the sale on Saturday, April 16, 2016 from 10 am to 2 pm. Some plants will be available in quantity, some may be single items only and others may be surprises from member donations (some arriving only the day before).

This list represents only those items for which we feel there will be sufficient quantities to reliably advertise them as being there. Still, for best selection, we recommend that you get there when the sale starts. The sale area will be divided into areas like Trees/Shrubs, Sun Perennials, Shade Perennials. We will have over 600 native azaleas and they will have their own section until they sell out (usually by noon).

Remember, this is only a partial list. We encourage you to come see what unique and special items didn't make the list!

Need help making your choices? We'll have volunteers on hand to talk about the plants and what might work best for you.

Shady groundcover ideas:

Native gingers like *Asarum* and *Hexastylis*
Galax urceolata
Heuchera spp.
Sedum ternatum
Tiarella cordifolia
Ferns, pussytoes (part-sun) and partridgeberry (part-sun)

Tip: Most shade plants can handle up to 4 hours of morning sun (before noon). For hot afternoon sun, choose sun-loving plants.
