

WGA Chapter Seed Propagation Workshop

The West Georgia Chapter of the Georgia Native Plant Society is hosting a four-session workshop on seed propagation. Sessions include a visit to several gardens (where we will collect seeds if any are available), a session on how to clean and store your seeds, and a session with tips for propagating with seeds from Elaine Nash. The last and fourth session will be a time to actually plant the seeds. You'll go home with materials for collecting seeds, a notebook on tips and tricks, as well as a flat of planted wildflower seeds.

Sign up today to reserve your space. Dates: July 25 8:00 am -12:00; September 12 8:00 am -12:00; January 18 10:30 am -12:30; March 19 8:00 am -12:00. Please provide the following information for your registration:

Name: _____

Address: _____

Cell and Home Phone Numbers: _____

Email: _____

Traveling from: _____

Please fill out the registration sheet and mail to: Flo Hayes 815 Rainey Rd. Temple, GA 30179

Make checks for \$100 payable to the WGC of GNPS. Participants will be provided with materials for collecting, cleaning, storing, and planting seeds, as well as a selection of native wildflower seeds. Please provide suggestions of native seeds you would particularly like to propagate at the end of the workshop.

NOTE: WE ARE DOING ONLY NATIVE PLANT SEEDS AT THIS WORKSHOP.

REGISTRATION WILL CONTINUE THROUGH July 18th, 2019. LIMITED TO THIRTY PARTICIPANTS.
