

## GNPS RESTORATION PROJECT APPLICATION

This application is to be used by organizations wishing to partner with the GNPS Restoration Committee for the purposes of:

- Habitat restoration on public land, parks or schools
- Establishment of native plant gardens or displays for educational purposes
- Relocation of plants to botanical gardens, arboreta or research facilities for scientific purposes.

Please read the attached GNPS Habitat Restoration Manual – it will help when answering the following questions. Restoration is an art as well as a science, and so it can be a little complicated.

If you have any questions about anything, please contact the GNPS Restoration chair.
