

Members of Coastal Plain Chapter of GNPS

If you have information to include in our monthly email, please send it to me at heather.brasell@gnps.org at least a week ahead of the coming month.

[Note: Items in italics are things you can do.]

July is again our turn to be featured in the NativeSCAPE newsletter. Check it out.

Coming Events (July & August ...)

- We have no events planned through the end of August due to COVID-19.
- We are starting to consider small events – field trips and workshops limited to ten people willing to use physical distance and wear masks appropriately. *Contact us if you have suggestions or requests.*

Save the Date (includes reminders)

We will add events such as GNPS symposium and GA Botanical Society Pilgrimage as dates become available. *Please let us know about events you'd like to have included.*

- November 7, 2020: CP Chapter Annual Meeting, location tbd.
- March 27, 2021: Middle Georgia University Spring Garden Symposium, Macon

CPC Annual Meeting Update

Mary Alice Applegate has been planning the annual meeting for our chapter. This is held towards the end of the year in the eastern part of the Coastal Plain. Planning has been really complicated by COVID-19. We really don't know what restrictions on gatherings or recommendations on physical spacing will be in place in November and some facilities are not taking bookings. So... expect to be flexible for the fall meeting. We will keep you updated.

Online Courses

Because of COVID-19, a lot of programs have moved online. I'll include online events as I hear about them. *Please let us know about online events you'd like to have included.*

- UGA Continuing Education will be offering their courses online. Check on upcoming courses at <http://conted.warnell.uga.edu/courses/hardwood> or contact Ingvar Elle (ingvar@uga.edu). Their next course is a 2-day workshop on upland hardwood forest management on August 4-5.

Ongoing CPC Activities

CPC Plant Sales & Updated Plant List

Amy Heidt has been organizing on-line sales. Online sales will occur through August with plant availability updates each month.

The updated list of what plants are available in Tifton is appended to this email. The new list has some additions and subtractions as well as some old friends that are now available again. *Contact Amy Heidt for all questions related to these plants for sale at ameidty@bellsouth.net.*

Community Projects:

- No new projects to report.
- Ongoing Len Lastinger Elementary School project: Marilynne Marshall added stepping stones to the pollinator garden that was planted earlier this spring. As she said, all that's needed now is the kids to enjoy and learn about native plants.
- Ongoing Fullwood Dog Park project: Mary Alice Applegate, Katherine Melcher and Marilynne Marshall weeded the new garden, which was planted in November. The garden is looking great, with many plants in full bloom.
- *Consider starting an individual project of your own, but keep us posted on what you are doing and share photos with us.*

CPC Plant Rescues

If you know of a place where we could do a plant rescue, contact Erin Cork at erin.cork@gmail.com

Other Information

CPC Facebook

Paul Sumner has been posting information about CPC events on our Facebook page. *If you have information you'd like to post, send it to Paul Sumner at psum@bellsouth.net.*

Native Plant Nurseries

We are collecting information about licensed nurseries that sell native plants - exclusively or predominantly native plants appropriate for the Coastal Plain ecoregion. We will compile a list for the August email.

In the meantime, here are some native plant nurseries operated by members of our chapter.

- Flat Creek Natives in Perry. Contact Greg Lewis (flatcreeknatives@gmail.com or 478-955-1731) or go to his Facebook page to make an appointment.
- Florabundance Nursery near Darien. Email Deborah Sheppard (debshep@dariantel.net) or text (912-230-3119) to order and arrange an appointment.
- Vincent Gardens in Douglas. Contact Donna Vincent from her website <https://vincentgardens.com/>.

Current Coastal Plain Chapter (CPC) Board

Change to CPC Board

Karan Rawlins resigned from the board and her position as Conservation Director, but has agreed to continue as an advisor. We certainly don't want to lose her expertise and institutional memory. Karan was responsible for rebooting the chapter in 2014 after it had become almost inactive.

Erin Cork has agreed to join the board and serve as Conservation Director. Erin is in the process of moving from her previous job with Quail Forever to DNR based in Richmond Hill. She organized one of the events for Great GA Pollinator Census last year and has been participating in the Certificate of Native Plants program.

- President: Heather Brasell – also member of GNPS Conservation Committee and Education Committee
- Vice President: Mary Alice Applegate – also member of GNPS Membership Committee and Representative for Central CPC
- Past President: Gail Farley – also Representative for East CPC
- Secretary: Amy Heidt – also Chair for GNPS Conservation Committee
- Treasurer: Eamonn Leonard – also member of GNPS Conservation Committee
- Conservation: Erin Cork
- Membership and Communication: Paul Sumner
- Representative for North CPC: Greg Lewis
- Representative for West CPC: tbd
- Advisors: Ed McDowell, Karan Rawlins

I would like to encourage other members to serve on the board in the future. New people bring new ideas and fresh commitment. *If you would like to become more involved in our chapter, contact Heather Brasell at heather.brasell@gnps.org.*

Plant Sale List - Coastal Plain Chapter of GNPS

Plants available for sale and pick up or delivery (July 1, 2020).

Pre-pay by paypal or \$ order. Include mileage to and from your residence/pick up site at 60 cents per mile if delivery is requested. Delivery will be made to the location requested.

To purchase plants and for all questions related to these plants for sale, please contact Amy Heidt at ameidty@bellsouth.net.
