2022 Spring Plant Sale

April 30 2022

10 am to 2 pm

Old Rucker Farm Park

Alpharetta, GA

This is our second sale as a chapter. We have hundreds of plants lined up for the sale. Some of the chapter plants will be available in quantity, some may be single items only and others may be surprises from member donations (some arriving only the day before).

This list represents only the plants being provided by the chapter and its members. The items listed here include only those for which we are planning to have 5 or more. These include some of the most dependable native perennials around, suitable for even beginning gardeners.

We encourage you to come see what unique and special items didn't make the list! Come early for best selection.

The vendors will have different things and their items are not represented on this list.

Mockingbird Feeding on Beautyberry

The mockingbird (*Mimus polyglottos*) is Florida's state bird. This lucky mockingbird enjoys the purple fruit of the American beautyberry (*Callicarpa americana*).
